

WORKSHOP ON CURRENT PRACTICES IN RUMINANT AND EQUINE THERIOGENOLOGY

Introduction

The quality of reproductive services that we provide and the ability to face new challenges in reproduction management so as to make meaningful changes in clinical practice and in the farming industry depends on the level of skill and competence that we have which should be up-to-date with the ongoing advances in knowledge and current practices in the specialty. Therefore, this CPD (30 points) is brought to you with the aim of updating your knowledge and skill on current practices in equine and ruminant reproduction based on diverse but selected topics in the area of reproductive technologies, handling reproductive problems and tips on providing integrated extension services; to be delivered in the form of lectures, panel discussions and hands-on practices by experts in the field.

We welcome you to this exciting and informative event.

Who Should Attend?

Those interested in the practice of ruminant and equine reproductive health and production

Programme

Day 1: 8th Jan 2014

8.00 – 8.30 am	Registration
